SUBJECT: Suspicious Activity - Stranger Danger

This letter is to inform you about information regarding recent stranger danger type activity in Linden. We have been informed that today, around 4:00 pm, a high school student reported to the Linden Police Department that as they were walking away from Eagle Park in downtown Linden an individual in a black 4-door sedan approached the student and asked if they wanted a ride. The student said "no" and continued to walk away from the vehicle. The vehicle followed the student for a distance. The Linden Police Department has indicated that the vehicle was last seen on Murphy St. in Linden. This suspicious activity is being investigated by the Linden Police Department.

This is a great opportunity, and reminder to talk with your children again about the importance of not speaking with strangers, along with having a plan if they are approached by a stranger. Feel free to share this information with friends, family, and neighbors, and be sure to call 9-1-1 if you see anything suspicious.

Please visit our website and look under the "Stranger Danger" link near the bottom of the home page for important safety tips on talking with your family about stranger danger.

Once again, this is Linden Schools calling with information about recent stranger danger type activity in our area. Please visit our website home page and click on the link titled "Stranger Danger Information" for safety tips to talk with your children about.

Thank you,

Russ Ciesielski
