SUBJECT: Stranger Danger Synervoice Message

Good evening, this is Ed Koledo, superintendent of Linden Community Schools, calling with an awareness message about some strange situations in our area recently and a reminder to speak to your child(ren) about stranger danger.

Yesterday we had a report from the Kearsley school district about a white, younger man with dark hair and dark eyes in a white SUV approaching a student near Richfield and Belsay Roads. I let our administrative team know of the incident.

Today we received and confirmed a report of a much more local incident that happened last night in a neighborhood by Linden Middle School. A white man with blond hair got out of the passenger side of a light colored SUV to ask one of our students if her parents were home.
In a third situation, one of our high school students reported she felt she was being followed by a man while walking to school yesterday morning.

Our local and county police are aware of these incidents. All three situations were similar and thankfully there were no direct threats made, but seeing these types of incidents means it is time to again get that “stranger danger” reminder out to our community.

If you have any information about additional incidents, please contact our local or county police.

Again, this is Linden Schools calling with a stranger danger reminder. I will have the text of this message on our website tomorrow. Our website also contains helpful tips in discussing stranger danger with your child(ren) in a link near the bottom of the home page.

Thank you - Good Bye
